meet the artist

Nuno Marques is the "master-mind" from behind the mask titled "ositaka". Born in the late 80's has always been influenced and inspired by the pixels of video-games, electrifying colors of the season and supersonic mathematical melodies - which unfolded at the time, between 4 and 8-bits.

After obtaining two courses in Graphic Design and Multimedia, here comes the time to venture out on German lands - Munich - at 19 years of age, where he worked for two European agencies of astronomy (HUBBLE/ESA & ESO).

Today days, and after working in a half-dozen creative agencies, develops work as freelancer Web Developer and Designer for Twolmpulse, leading company based in Zurich.

PHOTOGRAPHY

DRAWINGS

PAINTINGS

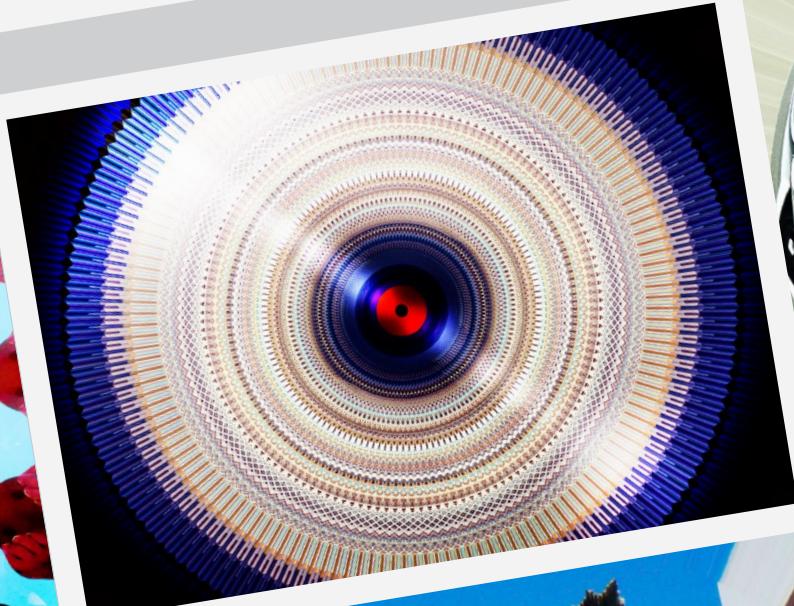

ILLUSTRATION

Traditional pen and pencil work.

I've always a deep look into all the details, shapes and shades, to create complex abstract elements on my artwork.

DIGITAL

Digital worlds, environments and spaces.
Here you can see my passion for digital processing and photo manipulation.
I really love shapes, textures and colors.

PHOTOGRAPHY

Hey! Looks like a polaroid.

You can take a look on my instagram account to see more madness:

DRAWINGS

Traditional pen and markers work.

I've always had a deep look into all the details, shapes and shades, to create texture and volume on my artwork.

PAINTINGS

It is all about ink on canvas/screen.

Digital, traditional or even collages — I am free to explore everything I want to create on these different fields. Mostly, I really love explore my compositions.
